Motion Pictures May Be Installed At Metropolitan Opera House

While people interested in the amusement business are still gasping at the spectacle of "The Birth of the Nation," produced in motion pictures and drawing crowded houses at regular theater prices in the heart of New York's theater district, the announcement is made that negotiations are in progress for the leasing of the Metropolitan Opera House for the production of joint film and musical dramas at regular Metropolitan prices!

This means that the 10-cent motion picture has leaped to the importance of the most expensive grand opera. In fact, the anneuncement of the negotiations in progress contain the statement that the price of orchestra chairs for the productions to be given will remain \$5, as heretofore!

The New York Review is responsible for the publication of the announcement, although it is made on authority of Louis J. Sleznick, vice president and general manager of the World Film Corporation, the film concern that is conducting negotiations for the leasing of the opera

The Safest Investments

Are those that do not fluctuate during dis-turbed conditions of the money or stock mar-kets. First deed of trust notes (first mort-agest), well secured on real estate in the District of Columbia, constitute "glit-edge" investments. They do not depend upon the financial responsibility of individuals or cor-cerations for their stability. financial responsibility of individuals or cor-porations for their stability, and are exempt from taxation as personal property. We can supply such investments in amounts from \$500 upward. Send for booklet "Concerning Loans and investments."
